NorthBridge Clinical Analytics LLC

Proposal in response to Solicitation 75N910-27-R-0044 — Research Data Platform and Analytics Support

Department of Health and Human Services — National Institutes of Health

Volume I — Technical

1. Data Platform Architecture

NorthBridge will provide a centralized data warehouse hosted in a commercial cloud region, loaded nightly from institute source systems.

2. Privacy and Data Protection

All platform users authenticate with agency single sign-on and data is encrypted at rest. NorthBridge will follow NIH policies as directed by the contracting officer's representative.

3. Researcher Self-Service Analytics

Researchers will receive standard dashboards for each program, refreshed nightly, and can request new dashboards through a ticket queue.
