RESTRICTION ON DISCLOSURE AND USE OF DATA (FAR 52.215-1(e))

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed — in whole or in part — for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of — or in connection with — the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtainable from another source without restriction. The data subject to this restriction are contained in all pages of this volume.

1. Predictive Maintenance Analytics

Bluestem will produce monthly readiness and maintenance reports from data exported by unit logistics staff, with trend charts showing which vehicles had the most work orders in the previous month.

2. Data Integration with GCSS-Army

Data will be pulled from GCSS-Army through monthly manual extracts and loaded into a reporting database.

3. Cybersecurity and RMF

Bluestem will begin implementing RMF controls after award, once the Government provides the system categorization.
