CONFIDENTIAL AND PROPRIETARY INFORMATION

Pages of this proposal marked "Confidential" contain trade secrets and proprietary information that the proposer asks the District to withhold from public disclosure under the state public records law. The proposer understands that the proposal becomes a public record once the District's award is final, except for the pages so marked, and that the District may disclose any part of this proposal not so marked.

1. Course Delivery and Assessment

Brightfield's teacher tools are designed to save planning time. Teachers start from reusable lesson templates, grade with rubrics on a single screen, and build quizzes from a standards-aligned item bank, and mastery reports show which students need reteaching.

2. Accessibility and Mobile Access

Brightfield's current conformance report shows partial WCAG 2.1 AA conformance. The course pages and gradebook conform, but the quiz player and discussion boards have known gaps for screen reader and keyboard-only users.

Brightfield will remediate these gaps in a future release, but we cannot commit to a date at this time. Until then, teachers can provide alternate formats for affected students on request. The mobile app requires an internet connection.

3. Interoperability and Rostering

Brightfield supports LTI 1.3 tool launches and OneRoster rostering from the District SIS, and staff and students sign in through the District's SSO/SAML provider. Brightfield complies with FERPA and COPPA.
