CONFIDENTIAL AND PROPRIETARY INFORMATION

Pages of this proposal marked "Confidential" contain trade secrets and proprietary information that the proposer asks the District to withhold from public disclosure under the state public records law. The proposer understands that the proposal becomes a public record once the District's award is final, except for the pages so marked, and that the District may disclose any part of this proposal not so marked.

1. Implementation and Data Migration

Ironleaf proposes a January go-live at the start of the second semester. Configuration begins in September, and schools switch to the new system when students return from winter break, so teachers and families will move to the new system in the middle of the school year.

Current-year student data will be migrated from the legacy system before go-live using Ironleaf's standard import tools. Historical data will be migrated as needed.

2. Training and Change Management

Each school receives two days of on-site training in December, and recorded webinars are available on demand. A parent portal launch kit with flyers and videos in 12 languages helps schools drive family sign-ups.

3. Support and Service Levels

Support is available 7 a.m. to 6 p.m. Eastern on weekdays, with priority 1 issues answered within one hour. Ironleaf commits to 99.5 percent uptime and hosts the system in U.S. data centers with daily backups.
