October 30, 2026 · Valid for 180 days from the proposal due date

CONFIDENTIAL AND PROPRIETARY INFORMATION

Pages of this proposal marked "Confidential" contain trade secrets and proprietary information that the proposer asks the District to withhold from public disclosure under the state public records law. The proposer understands that the proposal becomes a public record once the District's award is final, except for the pages so marked, and that the District may disclose any part of this proposal not so marked.

1. State Reporting, Enrollment and Attendance

Ironleaf produces the State's required enrollment, attendance and discipline extracts from built-in report templates, which District staff run and upload to the state portal each reporting window. Attendance is taken by period or by day, and absence letters are generated automatically.

2. Scheduling, Gradebook and Special Education

The scheduler builds secondary schedules from course requests with conflict checking. The gradebook supports both standards-based and traditional grading, with teacher-defined categories, weighting and rubrics that roll up to report cards.

Special education case management covers IEP drafting, meeting scheduling and service tracking, with state child count extracts.

3. Parent and Student Portal, Security and Privacy

Ironleaf's parent and student portal is our strongest feature. Families use a mobile app in 12 languages that shows real-time grades, assignments and attendance, sends alerts the moment an absence or low grade is posted, and lets parents message teachers, update contacts and pay fees. Students sign in with the District's SSO/SAML provider.

Ironleaf complies with FERPA and COPPA, encrypts student data at rest and in transit, and will sign the District's student data privacy agreement.
