Point of contact: Philip Strand, Managing Director

October 30, 2026 · Valid for 180 days from the proposal due date

CONFIDENTIAL AND PROPRIETARY INFORMATION

Pages of this proposal marked "Confidential" contain trade secrets and proprietary information that the proposer asks the District to withhold from public disclosure under the state public records law. The proposer understands that the proposal becomes a public record once the District's award is final, except for the pages so marked, and that the District may disclose any part of this proposal not so marked.

1. State Reporting, Enrollment and Attendance

Kestrel provides enrollment, daily and period attendance, and standard state reporting extracts that District staff export and submit through the state portal.

2. Scheduling, Gradebook and Special Education

Kestrel's master scheduling engine resolves conflicts automatically and balances sections by size and gender, and counselors can compare several draft schedules side by side. The gradebook supports traditional grading with weighted categories.

Special education and IEP management are not part of the core product. These functions are provided through a third-party special education add-on licensed separately; the partner will be identified after award.

3. Parent and Student Portal, Security and Privacy

A web portal shows families grades and attendance in English and Spanish. Kestrel complies with FERPA and encrypts student data at rest.
