October 30, 2026 · Valid for 180 days from the proposal due date

CONFIDENTIAL AND PROPRIETARY INFORMATION

Pages of this proposal marked "Confidential" contain trade secrets and proprietary information that the proposer asks the District to withhold from public disclosure under the state public records law. The proposer understands that the proposal becomes a public record once the District's award is final, except for the pages so marked, and that the District may disclose any part of this proposal not so marked.

1. Implementation Schedule and Route Conversion

Fairhaven will go live on August 11, 2027, two weeks before the first day of school. SIS integration uses a nightly secure file export from the District SIS, configured in March; the District's routes, stops and student assignments are converted from its spreadsheets in April and May; and GPS units and RFID readers are installed on all 88 buses in July.

2. Training for Dispatchers, Drivers and Families

Dispatchers and the routing coordinator receive 16 hours of training in July, and drivers receive a one-hour session on the tablet and RFID reader during the August in-service days. A Fairhaven implementation specialist works on site in the District dispatch office for the first two weeks of school to resolve route and hardware issues as they arise. Families receive a launch flyer and video in English and Spanish.

3. Support, Service Levels and Uptime

Support is available from 6 a.m. to 6 p.m. Pacific on weekdays by phone and web, with priority 1 issues answered within 30 minutes. Fairhaven commits to 99.5 percent uptime.
